

"Colorful" will be the theme of this year's 35th edition of the National Exhibition of Flowers with International Participation "Flora Bourgas". The challenge is related to the Easter holidays during which the emblematic forum for Burgas will be opened.

This year Flora will be held from April 28 to May 7. The submission of applications will continue until 28 March.

Traditionally, the exhibition includes a demonstration of cut flower arrangements, foliage-decorative plants, potted plants, planting material, architectural and artistic items and elements, light garden equipment, tools, and other exhibits related to the theme of the exhibition. The exhibition is accompanied by an entertainment program, which usually includes musical events, workshops, demonstrations and more.
