The Bulgarian supergroup Intelligent Music Project will once again delight fans of rock music with a memorable concert in Burgas on May 28, Summer Theater. The big news this time is that together with some of the best Bulgarian musicians, they will take the stage two members of the legendary Rainbow - Ronnie Romero, who is also the current vocalist of the band Richie Blackmore, and Bobby Rondinelli - the drummer who participated in some of the most iconic albums of Rainbow and Black Sabbath.

Tickets can be found in the EVENTIM network:
