

Welcome to Burgas!

Municipality of Burgas is bounded by the Black Sea surrounding the large Burgas Bay. Close to the seaside are located the [Atanasovsko lake](#), [Pomorijsko lake](#), [Mandrensko](#) and [Burgas \(Vaia\)](#) lake which form the biggest complex of maritime lakes in Bulgaria - unique itself with its extremely rich biodiversity. From here passes "Via Pontica" - one of the main fly ways of the European migratory birds.

One of the biggest airports and the biggest cargo harbor in the country are located in Burgas. Our town is an important centre for the sea tourism with plenty of facilities and transport connections to the resorts on the South Black Sea coast. The resort complex is enriched by the presence of the Burgas Mineral water baths /around 15 km from the town/ which is one of the most ancient Bulgarian balneology centers.

As a Mayor of Burgas Municipality I am eager to keep the good tradition when the guests of the town turn into its friends all their life.

Welcome to Burgas!

Dimitar Nikolov

Mayor
