

## **700 handmade martenitsas were given to Burgas medics**

Monday, 1 March 2021

Over 700 handmade martenitsas were distributed by the Burgas benefactors today, March 1, to the medics from the Lung Hospital, Complex Oncology Center-Burgas and the Center for Mental Health. Martenitsas are made by kids from 33 kindergartens and users of social services in Burgas, as a sign of gratitude and a wish for health and luck.
