The Employment Agency launches the National Campaign "Work in BG Tourism" in support of the tourism industry

Thursday, 3 June 2021

For the period from 7 to 11 June 2021, all labor offices in the country will organize open meetings for employers in tourism, hotel management, restaurants and those wishing to work in this field. The campaign will enable businesses to choose their staff from pre-informed candidates from across the country. The aim is thus to provide the missing staff for the successful functioning of the industry as soon as possible at the beginning of the tourist season.

In order to participate in the one-week campaign of the Employment Agency, employers operating in the field of tourism need to declare their vacancies by submitting applications for vacancies from today to 04.06.2021.
