BULGARIA WANTS YOU POSTPONES THE EVENT "LIFE AND CAREER - WHY IN BULGARIA?" IN BURGAS, DUE TO INCREASED MORBIDITY

Thursday, 13 January 2022

In view of the epidemiological situation in the country, the team of Bulgaria wants you decided to postpone its upcoming events in Burgas and Plovdiv.

"Life and career - why in Bulgaria?" Was to take place this weekend, but with such a growing number of Covid-19 patients across the country, holding such large-scale forums would be irresponsible. Although there is no explicit order to ban mass events, the organizers believe that from a moral point of view they have made the right decision.

"Despite the great desire to realize both events, this contradicts our civic conscience and sober thinking. As a socially responsible platform, Bulgaria wants you to realize the danger of holding forums on such a scale and we do not want to risk the health of our guests, speakers and partners. We thank the hundreds of registered visitors and we hope they share our opinion that the safety of all those present in the hall should come first." - commented Andrey Arnaudov, co-founder of the platform Bulgaria wants you.

"Our idea is for people to be able to meet face to face with potential employers and hear the success stories of Bulgarian entrepreneurs. However, with the data from the last two days, it seems too risky for this to happen at the peak of the pandemic." - added Ivan Hristov, co-founder of the Bulgaria wants you platform.

In a few days Bulgaria wants you will officially announce the new dates of the events. They are expected to be in the second half of March 2022. The organizers specify that the registrations made so far for Burgas and Plovdiv remain valid for the new dates.
