To make Burgas even cleaner – tell us what you think of the separate waste collection organization (survey)

Friday, 9 April 2021

The Municipality of Burgas again consults the opinion of its residents with a short survey, which will help for better organization of separate waste collection. You will find a link to it below this text. The survey is active until 16.04.2021. It is part of the project "Implementation of a model for management of large household waste in the municipality of Burgas", №BG16M.01.002-2.009-0050-C01, funded by OPE 2014 - 2020.
