

Dialysis center in Burgas with a gesture to its patients for Easter, run free examinations with a top nephrologist

Sunday, 02 May 2021

On the brightest Christian holiday of Easter, the Burgas dialysis center "NephroLife" presented gifts to all its patients. In addition to the traditional Easter cakes, they received a special surprise - themed Easter decorations, made by children with special educational needs. Following this initiative, the dialysis center in Burgas announces a new campaign. Top nephrologist Dr. Nikolay Todorov will examine for free in the seaside town on May 21. The consultations with the specialist are aimed at patients in pre-dialysis and dialysis stages, for which a highly specialized and reliable assessment of the health condition is needed.
