

This is how the iconic old building at 2 Momina Salza Street looks like today

Wednesday, 17 February 2021

The activities for the facade restoration of the iconic old Burgas building at 2 Momina Salza Street, opposite the South Bus Station, are almost complete. Finishing works remain in the interior. The beautiful building was put into operation in 1901 and has not been seriously renovated since. This happened now with funds won with an individual project to the Operational Program "Growing Regions", administratively supported by the Municipality of Burgas. However, the greatest credit goes to the owners, who showed activity and desire to revive the building for a new life.
