

The dogs from the shelter in Burgas are waiting for their guardians

Thursday, 1 April 2021

If you dream of having a pet, but do not have the opportunity to keep it at home, this is no longer a problem.

The shelter for stray dogs in Burgas has launched a new campaign in which everyone can become a guardian of one of the animals kept there.

The first four-legged friend with a guardian is the Karakachan shepherd Buck. His human provided funds for its nurture for a whole year.

If you become a guardian, you can use the funds to support the nurturing of your chosen animal, and in your free time you can take it out for a walk or play fun games.

Anyone can join the campaign without restriction. And in addition to becoming a guardian, you can also become a real adopter by taking one of the animals for taking care of it at home.

In addition to supporting the work of the shelter, the campaign has another important social function. Taking care of animals creates in adolescents a sense of responsibility and the right attitude towards them and nature.

The dogs in the Burgas shelter are of different sizes - small, medium, large and everyone has the opportunity to

like their desired friend. The four-legged animals have been socialized and passed all the necessary examinations, they have been castrated and dewormed.

They are waiting for you!
