

## **Magnolia and lavender will bloom in front of block 34 in “Zornitsa”- per request of the residents to the Municipality**

Thursday, 25 March 2021

This is a small, but neat and nice project under the new municipal program “My city, my neighborhood, my street”. Earlier on having new benches installed, block 34 in Zornitsa complex has now also been rehabilitated. Now the residents of the building also requested more greenery under their balconies. The municipality shaped and preserved their old trees, then planted a magnolia grandiflora as an accent in front of each entrance.
