

Between bl. 38 and 39 in "Izgrev" a parking lot will be built with 100 spaces and an alley network, but while preserving the existing trees

Wednesday, 17 March 2021

The residents of bl. 38 and 39 in Izgrev complex could be among the most active and restrained in applying for the new municipal program "My city, my neighborhood, my street". Thanks to the space between the buildings, the construction of a parking lot for 100 cars began. There will be new lighting and alley network with approaches to the entrance of the blocks. The current vegetation is preserved as much as possible. Only one tree is provided for covering, the roots of which enter the sewer. The inhabitants of the search area are exactly the things listed. The Municipality of Burgas is ready for introduction in the inter-block space and additional landscaping.
