Additional counters and supervisors are being recruited to count '2021

Tuesday, 25 May 2021

The National Statistical Institute has started an additional set of counters and supervisors for the 2021 count from May 25th to June 10th. The upcoming census will require about 30 thousand counters and supervisors. The application for the copyist or controller is a sample and is submitted to the municipality in which you prefer to be employed.
