

More than vandalism - someone intentionally damaged more than 30 lighting poles on Mesta Street

Saturday, 20 March 2021

Late last night in the duty room of the Municipality of Burgas a signal was received for non-functioning lighting on Mesta Street in Lazur complex. This morning the company was sent to repair the damage with a contract for maintenance of the area. Unfortunately, the street will remain dark tonight. Work is underway to restore power, but one day it will not be enough.
