

New opportunities: the community of Burgas and the RIC organise online informational meetings in support of the cultural sector

Tuesday, 23 March 2021

A series of online meetings will help the artists from Burgas in their application to the Ministry of Culture with personal projects. The events will be organized with the partnership of the Municipality of Burgas and the Regional information centres and they are aimed at providing additional explanations and recommendations to the creators when forming their project ideas and filling out financial assistance forms in open sessions of the Ministry. The first two consultations will be held on the 24th of March (Wednesday) and the 26th (Friday), both of which will be implemented on the online platform “Zoom” in 16 o'clock. The sessions are open to creative projects in the field of musical art.
