## Someone continues to intentionally damage the street lighting in Burgas

Tuesday, 6 April 2021

The Municipality of Burgas continues to seek help from the police, as well as citizens who can help with information about a person or people damaging the street lighting in the city. Recently, on the 20th of March, someone cut the cables on 34 poles and in this way extinguished the entire street of "Mesta". Then we distributed a video, in which you can see the silhouette and clothing of the criminal, but he has not been identified so far. If you have any information, call 112.
