

From tomorrow the second wearing layer of asphalt on "Democracy" - on the side of "Lazur" will be laid

Wednesday, 21 April 2021

With a steady rise in temperature and a positive weather forecast, the time has come to lay the second imported plastic to increase the part of the reconstruction of the Burgas boulevard "Democracy". From tomorrow, 22.04.21 - Thursday, to 24.04.21 - Saturday, work will be done in the eastern lane, on the side of Lazur complex, in the section from "St. St. Cyril and Methodius" to Koprivshtitsa Street. For this purpose, the traffic will be temporarily changed, as it will take place in both directions in the western lane, on the side of Bratya Miladinovi complex.

It will be necessary to temporarily close the intersections "Democracy - "St. St. Cyril and Methodius" and "Adam Mickiewicz"- "Konstantin Velichkov", as approaches to them from the section under repair will be closed and cars will be directed along detour routes.

To service, the next bus stop will stop in the active lane. Some disturbances in the schedule of lines 15, B11, and B12 are possible, but a change in the routes and stops of the public transport will not be undertaken. Drive and cross carefully!
