

A JOURNEY THROUGH TIME AND A CHRISTMAS PHOTO SESSION AWAIT YOU AT THE MUSEUM OF THE IMPOSSIBLE IN BURGAS

Tuesday, 10 December 2024

This December, residents and visitors of Burgas will have the opportunity to visit "Impossible Station" – the latest installation at the Museum of the Impossible. This is a place that transports visitors to a distant, time-lost Victorian-era train station.

"Impossible Station" is a Christmas photo zone with augmented reality – a place where museum guests, either on their own or with the help of museum guides, can take photos and create unforgettable holiday memories, both individually and as a family. Created with great attention to detail, this installation will immerse you in a magical atmosphere and give you the chance to capture unique and exciting moments.

The photo session at "Impossible Station" is free for all museum visitors.

The Museum of the Impossible is suitable for all ages and offers not just exhibits, but experiences that inspire and stimulate imagination. It is located in the heart of Burgas and is the perfect place for family visits. The Museum of the Impossible is open on all holidays and weekends.

For information about working hours and special offers, follow the museum's social media:
