

Burgas is inviting locals to help clean up our city!

Monday, 08 April 2019

Posted by: Radostin Rachev

The Burgas Municipality is starting its traditional ecological large-scale spring cleaning, which will take place in the full vicinity of the area. The activities that will take place include manual and mechanic cleaning of public areas, street gutters, roadside areas, beaches, streets, collection and disposal of construction materials and plant waste. Old furniture, construction materials and large waste can be disposed of for free after scheduling a pick-up, which can be done directly to "Titan Burgas" - 056 852 337. In case of arbitrary disposing of furniture, building materials and large waste citizens responsible for this action will be fined. The schedule is listed on www.burgas.bg.
