The municipality of Burgas is applying for a project for the provision of 5 new social services, which will provide the necessary health and social care for children and families in need. For the realization of the idea, the administration will apply for grants under the Operational Program "Human Resources Development" 2014-2020, a procedure "Continuing support for deinstitutionalization of children and young people" - STAGE 2 - Provision of social and integrated health and social services for children and families "- COMPONENT 1.

The main objective of the procedure is to continue the support of the deinstitutionalization process of the care for children placed in the homes for children deprived of parental care and the closure of these institutions. Among the priorities of the project is to ensure children's family environment and access to quality care and services according to individual needs.
