At Cultural Center "Sea Casino" a demonstrative forum themed "Where should I study?" took place on March 26 and March 27, 2019. The event is organized for a second year by the Center of support for personal growth. The forum was opened by the vice-governor of the Burgas Province Mrs. Sevdalina Turmanova and senior expert "Organization of Secondary Education" in Regional Management of Education - Burgas Deyan Bozhinov.

Students from 8th to 12th grade from professional and secondary schools with professional classes in the Municipality of Burgas introduced in an innovative way the professions in their school in front of an audience of seven-graders and parents. The presenters managed to attract the attention of the future high students with their multimedia presentations, robots made by the students and even an electric vehicle, as well as demonstrations of chemical experiments and cosmetic production. The forum was turned into a memorable experience.

The event was attended by over 200 seven graders from 9 primary schools.
