Only a couple of days are left until the emblematic annual floral exhibition "Flora" takes place in Burgas, on Easter Sunday. It will be open up until the 7th of May. This year's theme for the exhibition is "Colourful". The Municipality of Burgas invites all to come down to the exhibition and enjoy themselves at "Flora 2019".

Other activities include art and pottery workshops, flower animation for the children, a presentation from the Association of Florists on floristics and more.
