

At the suggestion of Mayor Nikolov, the victims from the flood in Dimchevo will receive help

Tuesday, 23 February 2021

The households from the village of Dimchevo, that were affected by the flood at the beginning of the year, will be provided with assistance. This will happen after the city council supports the proposal of Mayor Dimitar Nikolov to provide financial assistance of 40 thousand leva, to restore the consequences in the affected houses. The money will be used to buy household property and building materials, with which the affected families can restore their homes and normal lifestyles.
