

Because there is no place for playgrounds in this urban area, one has been made in the yard of the new library

Tuesday, 30 March 2021

The base is a shock-absorbing flooring, made of self-leveling rubber. The mounted swing and climbing equipment are suitable for children from 3 to 12 years old. Everyone knows that in this area of the city, the construction is dense and there are no free places for playgrounds. Therefore, it is expected that this one will be used frequently, with desire, and in fact to be another of the many reasons why it is worth visiting the new library when it is officially opened.
