

Another small improvement was completed, next to bl. 131 in "Meden Rudnik"

Friday, 5 November 2021

The Municipality of Burgas has developed a space near bl. 131 in the complex "Meden Rudnik". There is a children's playground, the sidewalks have been repaired. Ecological acacia wood and several old car tires were used to make the play equipment. There used to be illegal metal garages and piles of construction waste at the site.
