

The application for replacement of the old stoves with new eco-appliances continues

Wednesday, 10 March 2021

2280 households in Burgas have the opportunity to improve the comfort in their home by replacing their old wood stoves with new eco-appliances. Residents of the Dolno Ezerovo neighborhood, as well as in zones A, B, C, and the Regional Center of the Meden Rudnik complex can take advantage of this opportunity. Applications are submitted to the special information center in Chitalishte "Prosveta - 1927" in "Dolno Ezerovo". It is open to citizens every working day from 12:00 to 19:00. For the convenience of the citizens, an information center for receiving applications will soon be opened in the Meden Rudnik complex.
