

A mobile app for loading city transport cards has been released

Thursday, 25 March 2021

Citizens and guests of Burgas will now be able to load their regular cards for transport through the new mobile app- Transport Burgas. This will make it easier for consumers and reduce on-site visits to the Transport House.

Through their smartphone, in addition to loading their card, users will be able to receive information about the movement of buses in real time, the exact time when the bus will be at the nearest stop, as well as to compile a route for travel by public transport. within the city. This is another step towards the digital transformation of the city through easier access for citizens to a variety of digital services.
