

Only in Burgas you can expect a weekend with real robots and specially arranged places for spectacular selfies

Thursday, 13 May 2021

* The bridge will be attractively lit again, tomorrow you will find out how

For the second year in a row, the Municipality of Burgas organizes themed weekends to make the city even more interesting for its guests and residents. The upcoming one is dedicated to digital arts. The partners in the initiative BulevArt - Network of the Senses are also involved in its preparation. With the support of the Municipality, they organize a big "provocation" that will make you smile and make a spectacular, and if you want a crazy selfie. The choice is yours, the important thing is to have fun!

The coolest selfies will receive prizes! Read more here: <https://www.burgas.bg/bg/novini/vklyuchi-se-v-predizvikatelstvoto-na-bulevart-na-digitalnite-izkustva-selfi-uikend-specheli-nagrada>.

To inspire you, from Friday to Sunday we will arrange in a special way several landmarks in the city. Take pictures there, or wherever else you want (there are many special places in Burgas) and share the selfie with friends on social networks.
