

Large-scale social project "Independents" of "Breeze" swimming club launched

Thursday, 15 April 2021

"Breeze" Swimming Club expands its social activities. The Independents project was launched successfully last week. It is implemented with the financial support of the Ministry of Youth and Sports.

The main goal of the project is to expand the scope of activities that the Burgas Swimming Club has been conducting independently in recent years, namely - information campaigns, trainings and other activities. The main idea is to use them to increase initiatives to improve health and physical activity.

The project "Independents" is provoked by the deepening negative trends related to the health of young people aged 15-29, which include various forms of addiction - drugs, smoking, alcohol, internet and others.

SC "Breeze" has already held two events within the project "Independents". The training week was successfully completed, which included modules to support the development of youth leaders and to improve the skills of young people to prevent and deal with various negative addictions.
