

## **THE FIRST WATER ACTIVITIES FOR BABIES STARTED IN THE "FLORA" POOL**

Tuesday, 12 July 2022

The first activities in a water environment for babies and toddlers up to the age of 3 started today in the "Flora" children's pool in the Sea Garden. Eight babies were the first visitors to the water gymnastics for the little ones.

In just 2 days, over 50 parents signed up to participate in the Viber group - "Water Kids - Burgas" and shared their interest in water activities. They are conducted by the licensed and professional international early swimming instructor Zhana Ponomarenko, in partnership with Zdrave - 09 Sports Swimming Club.

Water training will be held every Tuesday and Thursday in two groups of 30 minutes. The first group will be for the smallest "swimmers" from 11.00, and the second will start immediately after it from 11.30. Mothers can also participate in the activities, as this helps a lot with the child's confidence and calmness in the water.

The next water activity will be held on July 14 /Thursday/, and registration for it will be the day before, on July 13 /Wednesday/ in the Viber group: "Water Kids - Burgas" or on Instagram at: [waterbaby\\_janna\\_burgas](#).

The classes in the aquatic environment will be priced: BGN 15 training fee (SK "Zdrave" -09) and BGN 2 entrance to the Flora pool (to be paid at the reception).
