

This is a new parking lot with 75 parking spaces in “Izgreв” and 20 trees will be planted around it

Thursday, 1 April 2021

The construction part of the improvement of the space around two of the 18-storey residential blocks in “Izgreв” complex has been completed. 75 comfortable parking spaces and new sidewalks have been built. The lighting has been improved. Residents also demanded landscaping. That is why 20 trees will soon be planted in the already dug flower beds around the parking lot. We are sure that the people from 62-64 block will help with caring for them. A nice gazebo will also be set up.
