

Repairs on Samuil Street will start tomorrow, the plumbing will replace the pipes first

Wednesday, 3 March 2021

The next street in Vazrazhdane, which is undergoing major repairs after a break of several decades, is Samuil. First, activities are underway to upgrade its underground water supply network. The first stage covers the section from Tsar Kaloyan Street to Ivaylo Street. For this purpose, from March 4 to April 5 this part of the street will be closed to cars. The budget of the Municipality of Burgas for this year includes the renovation of "Samuel" from "Tsar Kaloyan" to "Gladstone". After the installation of the new plumbing infrastructure, new pavement and sidewalks will be gradually built on top.
