

Tomorrow starts the next stage of the construction of a noise barrier near "Sarafovo", so they change the traffic

Monday, 10 May 2021

The next stage of the project for construction of a noise protection wall near the Sarafovo district of Burgas starts tomorrow. Its purpose is to counteract the traffic noise from departing and landing aircraft, as well as from the traffic flow passing on the ring road I-9 Burgas - Varna.

To provide a front for the work of the construction company, the right lane in the direction of Pomorie (after the road junction "Sarafovo" - Airport), as well as the right lane when leaving the roundabout to road I-9 in the direction of Pomorie, to be closed for traffic from 09.00 on 11.05.2021 (Tuesday). The construction activities are expected to be completed by September 25, 2021.
