

## See how you can replace your old furnace with a new appliance if you are a resident of “Dolno ezerovo” and “Meden rudnik”

Monday, 15 March 2021

Residents of the Dolno Ezerovo neighborhood and zones A, B, C and the Regional Center in Meden Rudnik have the opportunity to improve the comfort of their home by replacing their old solid fuel furnace with a new appliance.

The replacement is carried out under a project of the Municipality of Burgas, which aims to improve air quality, entitled "Reduction of air pollution with fine dust particles in Dolno Ezerovo, Burgas", funded by the Operational Program " Environment "2014-2020, through the Cohesion Fund of the European Union.
