

THE CONSTRUCTION OF A NEW PARKING LOT WITH 100 PLACES IN "MEDEN RUDNIK" HAS BEGUN

Thursday, 25 February 2021

The construction of a new parking lot for about 100 cars in the largest residential complex in Burgas has started. People from three panel blocks - 23, 24 and 25 - requested it. The project will be implemented with funds from the pen for maintenance of the infrastructure in the municipal budget. It also provides for the installation of lighting and sidewalks. There used to be tens of illegal metal garages in this area, however they were willingly removed by their respective owners.
