Due to the increased infection rates of K-19 in Burgas, the following measures are applied again

Friday, 12 February 2021

After a meeting of the municipal crisis headquarters, Burgas is to implement the following measures again:

- Active disinfection by the municipal Disinfection station of kindergartens/27 disinfected so far/, schools, buses from public transport and bus stops.
- Renewal of police, RZI and municipal checks of retail outlets for compliance with M3 anti-epidemic measures.
- Disinfection of public spaces in quarter "Pobeda", as well as distribution of antigen tests from RZI to medical centers in Burgas.
- Repairs to be made to the reception for vaccinations of RZI, with the possibility of placing a unit to maintain the temperature in the freezers.
