

A GREEN CITY PARK REPLACES THE BARRACKS OF THE OLD LEATHER DISPENSARY

Monday, 30 May 2022

Last year, Mayor Dimitar Nikolov proposed that the old barracks of the Skin Dispensary be demolished and a public park created in their place. The local parliament also supported the initiative. In the following months, the status of the terrain was changed. The Leather Dispensary itself moved to a better place a few years ago and the property of just over 2 decares in the city center remained unusable.
