

Green sculptures, floral photo corners, and colorful space for the absent with an average exhibition of "Flora Burgas 2021"

Wednesday, 21 April 2021

This year the National Flower Exhibition "Flora Burgas" will be held entirely outdoors. From 8 to 16 May, visitors and participants will hold their traditional meeting to exchange tips and information on the latest trends in landscaping, floriculture, floristry, and everything related to flowers, gardens, and their maintenance. Opening the curtain of this year's surprises, we will reveal in advance that in addition to beautiful green sculptures, in the open areas there will be beautifully arranged flower corners, perfect for a photo frame of your smiling photos.
