Bourgas Regional Chamber of Tourism represents 156 members which are situated not only in the South-East Black Sea Region of Bulgaria, but they have business in other tourist regions in Bulgaria. Our main aim is to improve the business climate for the tourism professionals in harmony with the country's economy and legislation. Hotels, travel agencies, incoming agencies, bus companies have monthly meetings in order to discuss short term and long term strategies.

Since Bulgaria joined the European Union, the infrastructure has been improved (including the airports), new historical sites have been definite and presented to the public, cultural events such as concerts and festivals, various exhibitions take place in many cities at the Region. Many accommodations offer Spa and medical treatments in a pleasant environment, wine cellars and fancy restaurants offer excellent cuisine in the historical center of the towns of the region and create a unique atmosphere. Having in mind the great variety of nature sites, such as lakes, rivers, caves, mountains and the harmless Black Sea, Bulgaria is a great destination for many tourists to visit!
